Funding by: None

GLOBE protocols used in country: Mosquito, Atmosphere, Soil, Hydrology

Number of schools currently reporting data (2018): 5 schools reported in the past three months

Description of the program in your country and recent activities in 2018:

GLOBE Micronesia has completed several teacher trainings in 2018 which included trainings on the Zika project, and trainings on atmosphere protocol, soil protocol, cloud and hydrology. We are currently coordinating the CMTs in Micronesia and have scheduled to conduct trainings for 150 participants. We have trained over 75 participants and developed schedule to complete trainings for other 75.
